PROFESSIONAL SUMMARY

React-focused Frontend Developer and CS undergraduate (2023–27) with hands-on experience in UI development, REST API integration, and cross-platform debugging. Familiar with mobile app development concepts; currently upskilling in Flutter/Dart. Strong collaborator with production-level team project experience.

EXPERIENCE

- Code Inbound LLP** , *Software Development Engineer Intern*2025/12 – present | Remote
 - Identified and resolved 30+ frontend UI bugs across layout, styling, and responsiveness.
 - Debugged 25+ React components, eliminating rendering errors and improving cross-browser compatibility.
 - Worked with developers to reproduce issues and validate stable fixes before deployment.
 - Enhanced usability across 10+ pages, improving visual consistency on desktop and mobile.
- Sphurti Sports Fest 2026(DIT University)** , *Technical Team Head*2026/01 – 2026/03 | Dehradun, India
 - Leading a team of 10 developers to deliver a full-stack website within a 3-month timeline
 - Managing end to end development including planning task allocation code review and deployment
 - Implementing features such as live score updates event registration and dynamic data handling
 - Managed deployment of the full stack sports fest website on the university server ensuring reliable live access and uptime
- Youthopia Fest(DIT University)**, *Frontend Developer*2024 – 2025 | Dehradun, India
 - Developed responsive event, profile, and registration pages using React, Vue, HTML, CSS, and JavaScript
 - Integrated REST APIs to render dynamic event data and enable real time updates
 - Optimized UI performance and ensured cross browser compatibility across desktop and mobile devices

SKILLS

- Programming Languages:** Java, Python, C, JavaScript
- Frontend Development:** React.js, Vue.js, HTML5, CSS3, Responsive Web Design, RESTful API Integration, Cross Browser Compatibility, Frontend Debugging, TypeScript, Redux, REST API Integration, Agile/Scrum, Node.js, Jest, Vercel, Unit Testing
- Databases:** MongoDB, SQL
- Cloud and DevOps Tools:** Docker, Google Cloud Platform, Git, GitHub Web Deployment
- Core Computer Science Concepts:** Data Structures, Algorithms, Object Oriented Programming, Software Development Lifecycle
- Mobile Development (Learning):** Flutter, Dart

PROJECTS

- Customer Survey Kiosk** , *React.js, JavaScript, CSS, Vercel*
 - Built a responsive kiosk-style survey application with multi-step form flow and real-time input validation
 - Implemented component-based architecture in React with clean state management across form steps
 - Deployed on Vercel with automatic CI/CD on push; accessible via public URL
- Sphurti Sports Fest Website** , *React.js, Node.js, MongoDB, GoDaddy*
 - Led development of a full-stack sports fest platform supporting live score updates, event registration, and dynamic data handling
 - Managed deployment on university server ensuring stable uptime during live event with 10+ concurrent features

CERTIFICATIONS

- Google Cloud Arcade Program** , *Legend Tier Achiever*2025/01 – 2025/06 | Remote

Practical exposure to Google Cloud Platform and cloud deployment environments
- Linux Fundamentals** 
- Database Management Essentials** 
- Introduction to Java** 

EDUCATION

- Bachelor of Technology (B.Tech) in Computer Science and Engineering,**2023 – 2027 | Dehradun, India
DIT University 
Specialization in Full Stack Development and DevOps
